above are pretexts urged for the continuance of Downing-street, April 7, 1879. Sir .- I have to acknowledge the receipt of the present exceptionally high salaries and allowbur despatch, No. 17, of February 3, enclo- ances in the Chinese consular service. We are ances in the Chance constitute of the stern province of the Cape of Good Hope.

It is no means advocates for the reduction of the stern province of the Cape of Good Hope.

It is no means advocates for the reduction of the stern province of the Chinese tified on pleas essentially rotten. The Chinese tified on pleas essentially rotten. continued to them at the expense of this Consular estimates should not be assailed on The grounds of their request are, that some simply a Chinese bureau, inimical to British 000 settlers were sent out to that province interests, and should be reduced to one third fty years ago, that the colony, which stready its present cost. The Vice-Consulates at ays more than it can alford for its police Whampon, Taku, and Pagoda Island, should at other defensive force, is unable to give he done away with, and the duties performed hat effectual protection which is necessary at the Maritime Customs, under a suitable arbut effectual protection which is necessary of the development of the resources of the fatrict and the security of the inhabitants; should be brought to England, and the cadeta nat the Colonial Legislature does not regulate a should be brought to England, and the cadeta natives, for the consequences of which, therefore, the Home Government are responsible; poutly to pay him whilst being educated, and that British Kaffraria has recently been then to give him an honourable and lucrative than the colony.

dded to the colony. They allege various post for life, is quite anusual and exceptional ther considerations to show that the confinance of military projection is required by PARIS TAKES KINDLY TO HORSE. he interests of this country, and add that FLESH. hey cheerfully acknowledge their obligation If the consumption coes on increasing at its recent rate, there will, in a few years, be no o the common defence. placere that the introduction of 5,000 settlers room for heef in the markets. The Minister was, in fact, not a diminution but an increase of Agriculture has had a report presented to I the defensive power of the colony, and that him by the committee for encouraging hippoany claim to further advantages which the phagy, and it contains some figures that will plany or the immigrants, representative might abomination. It was on the 9th of July, 1866, found on this benefit as against the imperial Government has been far more than estished that the first horse flesh must was opened; and

Government has been far more than satisfied that the first horse flesh mart was opened; and from that day till the end of the year, 902 steeds were cut up and sold to set forth the effectual protection of life and properly is essential to the progress of the colony. I observe, however, that the memorialists estimate the white population at 200 000 and the cost of search could increase, for in that year, the the whole were paid by persons of European of included. Three hundred head of "cattle" is a good round number to be added to each origin, would only amount to 10s, a head, and previous year's consumption; and it is a proof declare this sum to be " a strain on the finances that knowingly or not, the Parisians are habi-But this is a surgely a good reason for shifting all further expense on the inhabitants of Great which was so reliabed by one of them who, was defence, independently of police, and whose winder the surgely and the surgely and whose which was so reliabed by one of them who, which was so reliabled by one of them who, which was so reliabled by one of them who, which was so reliabled by one of them who, which was so reliabled by one of them who, which was so reliabled by one of them who, which was so reliabled by one of them who, which was so reliabled by one of them who, which was so reliabled by one of them who, which was so reliabled by one of them who, which was so reliabled by one of them who, which was so reliabled by one of them who, which was so reliabled by one of them who, which was so reliabled by one of them who, which was so reliabled by one of them who, which was so reliabled by one of them who, which was so reliabled by one of them who, which was so reliabled by one of t condition is each that, in the judgment of the memorialists, large classes of Englishmen will better themselves by proceeding to the Cape.

On the third point I have already informed growth the Morre Game of the state of the cape. you that the Home Government, far from being lesirous of retaining its present control over the internal or external affairs of the colony, is only desirous that the government, whether that in 1868 the amount may be stated at two "responsible" or not, should be effective. And inillion kilogrammes. They are proud of their I must add that the memorialists' account of progress, and well they may be; but who the present state of the native population, and envice them f-Englishman. the absence of any material notive difficulties.

tion of advantage. The personal element may garden, Apply to

have long since disappeared from the family, but not before it had been transmuted into

something else, in virtue of which the present

representative is able to accomplish a great

deal, owing solely to the high position which to

has acquired through the efforts of another.

We thus see that in the social world we have

what may justly be tormed two kinds of energy, |

Let us now again turn to the physical world.

In this, as in the suc al word, it is difficult to

to that force which keeps a min down in the

velocity, it may be said to have in it a

great deal of actual energy, because it has the nower of doing useful work or of overcoming

up to a great beight the obstacle interposed by

gravity to it ascent, just as a man of great

energy has the power of overcoming obstacles

But this stone as it continues to mount up-

wards will do so with a gradually decreasing velocity, until at the adminit of its flight all

the actual energy with which it started will

have been enent in raising it against the force

moving with no velocity—just, in fact, beginning

to turn-and we may suppose it to be cought [

and lodged upon the top of a house. Here,

then, it remains at rest, without the slightest;

tendency to motion of any kind, and we are let.

to sak what has become of the energy with

which it began its flight? Has this energy

disappeared from the universe without leaving

behind it any equivalent? Is it lost for ever,

nuirle in Marmittan's Mazasine, August, 1808.

BALFOUR STEWART.

norld. It a stone be shot upwar le with great
